While our roving VEVLET photographer was in Spain recently to shoot several fayoute, he met a young Dutch couple at his hotel who seemed very interested in what he was doing there. When he told them he shot models for an American sex magazine, they suggested that he should come back to their room with themand bring his camera. "Who knows what may happen," the wife told him. "If you should start to photograph us, I wonder if we would want to stop you." Then the young husband added, "And if you get too horny watching us, you might went to join in. I wouldn't mind, if my wife doesn't." A coy amile played across her pretty face. "When I'm in one of my moods, I don't mind anything. You can do whatever you like with me!"

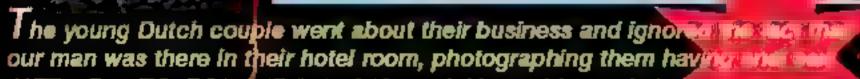

asked our roving photographer to return to their room with private session. They even invited him to join in if he wanted!

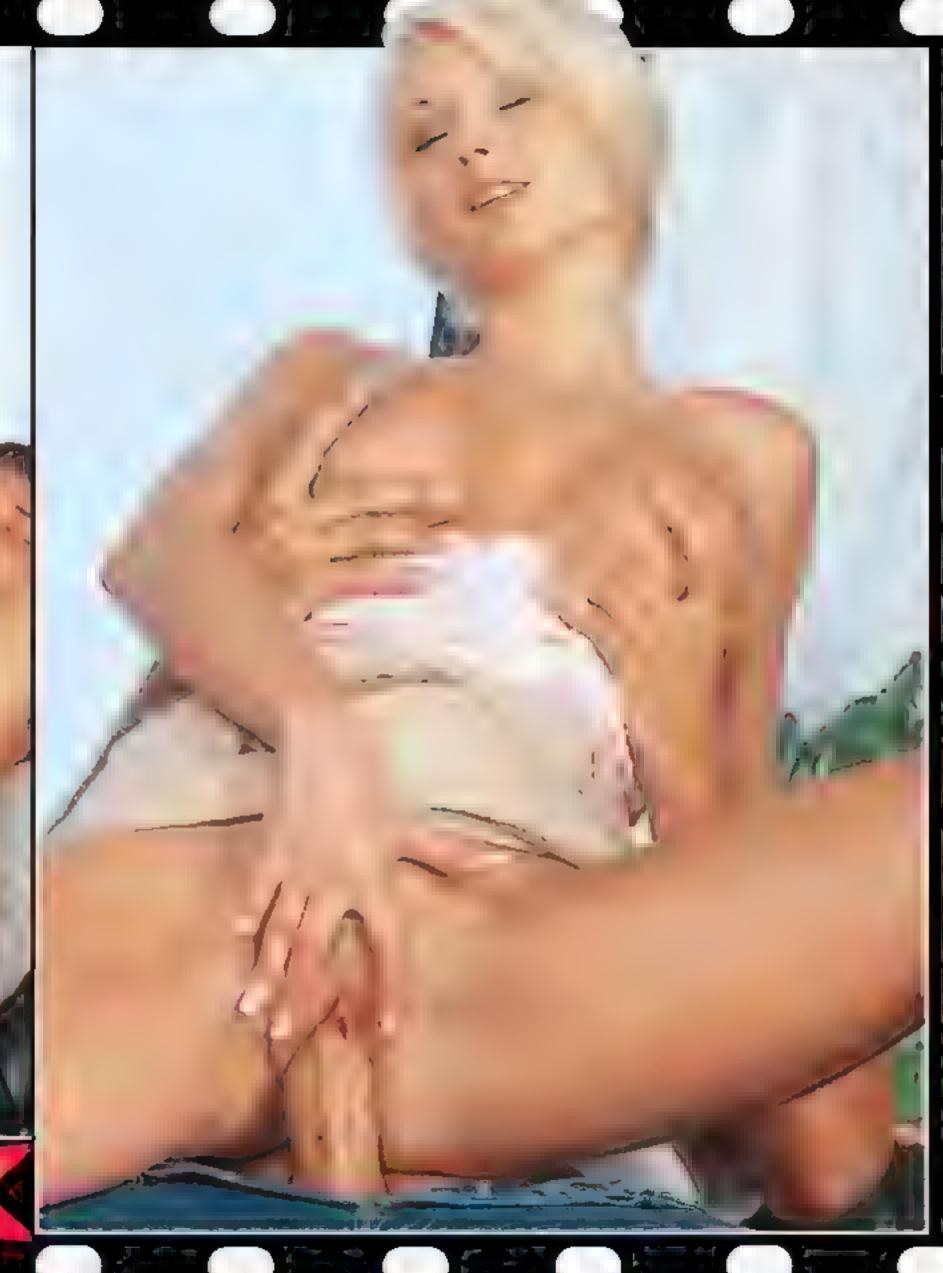

Our photographer didn't ask their names. What good is a name at an anonymous hotel rendezvous? He followed them to their room, and they acted like he wasn't even there. For a few moments he thought it was odd, but then he realized that part of their fantasy was that they were alone and somebody was apying on them. He took out his camera and watched.

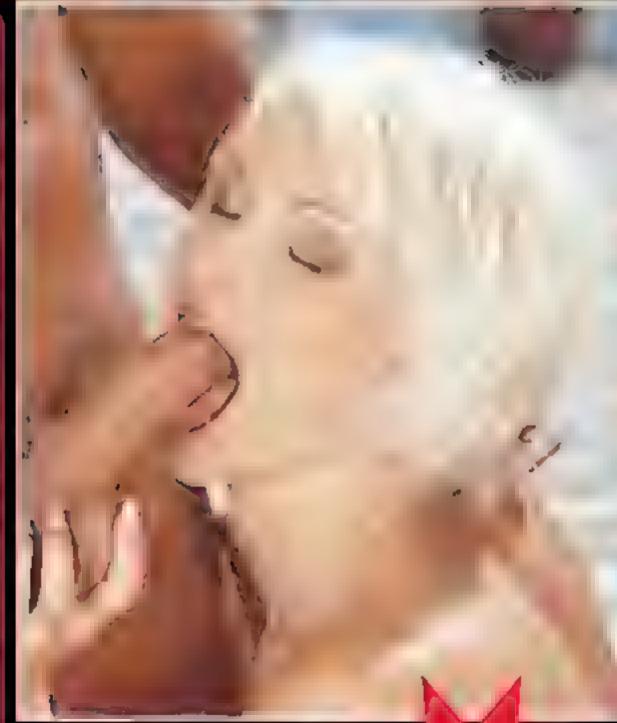

The little blonde Dutch girl was totally into her hueband, especially when she aucked on his cock for what seemed like a half hour. As far as she was concerned, our roving ... photographer was someplace on the moon. But when her 🐁 husband alid his big cook up her ses and began to fuck her, she auddenly looked ; over at our Man With the Camera se if she'd auddenly noticed him for the first time. He could see the gleam of recognition come into her eyes. She was feeling animal lust, and the sensations were too much to share with just one man. Our photographer was unsure whether to keep shooting or put down his 🦂 camera and join them. For the moment, though, he kept clicking away, getting as much coverage as he thought he would need for this leyout. But when he felt he'd caught everything he needed, he stepped closer to where she was sitting on her husband's cock, filling her asshole.

Our photographer pulled out his dick and stepped over the young burch woman. She greedily sucked him until he came in her mouth total velicional

Physically, she looks like the prototype of the hipple "parth mother" chick so popular in the 1970s, but on Marthas-Girls you can see her functorances in the bloomers of the early 1900s. There are also behind-the-accanes photos of Mimi as she really looks, a pretty young woman most decidedly of the 21st century; as well as a "portfolia" of sexy gap shots of "Martha," the "proprietor" of the site. Marthas-Girls really makes you appreciate the power of the evotics styles.

As a lever of antique pers myself, and as an adilor who has long presented meterial New this in Ewanti's companion magazines Lag World and Cheeks, I was curious about its Mistress of Retroffsunch, as well as why has site has getten so much manetreem attention; as through her publicist, I set up an interview with Hester Nash.

If the power is an entitive postered show. Postered are the most pedestrian shall, but one in 20 of these dealers has a little stank (of erotics) behind the counter. There are almost no woman who do this, even teading in regular postereds. It's kind of a "guy thing." These dealers tend to be older, kanda merely, and there is a smell—not about the men themselves, but the skill paper smell when you walk into these rooms.

Working with a male partner in charge of the site's design, Restor's tastefully arranged archive has gotten media attention in places like USE Today, WashingtonFost.com, and the History Channel, in contrast to most porn ventures (like newsstand porn magazines) which generally fly under the mainstream radar.

Also, I learned something a few years ago which was kind of a humaner. It's haunted me, and now i try to be conscious of it.
